YEAR 6A

As you prepare to move on to senior school, I am filled with a mix of happiness and heartbreaking feelings. It seems like just yesterday I first started teaching you in Year 3. I vividly remember each of you when you were just a few inches tall, and now you're taller than me. Words can never fully capture how I feel about being both your mother and your teacher. We have gone through many highs and lows together, supporting one another through challenging times. My love for you is unconditional, and I can already envision you all becoming future doctors, engineers, scientists, and leaders.

Our time together has been full of exciting moments and personal growth, from engaging lessons to special activities and trips. Your endless curiosity and enthusiasm have brought energy to our classroom and transformed challenges into exciting opportunities. Beyond the fun, your resilience and support for each other have been truly inspiring, highlighting the strength of our community.

As we say goodbye, please remember that each of you is very special to me. It has been an honour to watch you grow and develop throughout the years.

I believe in your ability to succeed and flourish in everything you do. Keep in mind, the possibilities are endless!
